Your Manufacturing
Partner

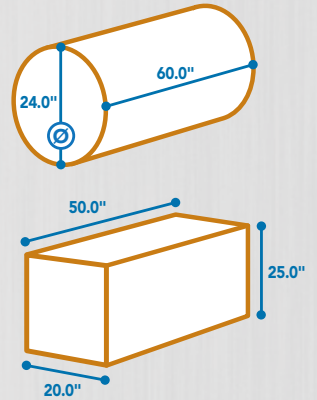

SERVICES OFFERED

Hi-Tech offers complete contract manufacturing services. Hi-Tech can provide the engineering and manufacturing expertise to deliver completed parts and assemblies. We machine all standard metal alloys, engineered plastics, most composite materials, and exotic metals. We have milling, turning, and grinding equipment in-house, and work with partners for additional manufacturing services.

- CNC Turning with live tooling, and bar feed capabilities allows Hi-Tech to accurately and cost effectively produce complex parts
- 3-Axis, 4-Axis and 5-Axis CNC Milling capability

Maximum Work Envelope

MACHINE CAPABILITIES FOR BOTH SIMPLE AND COMPLEX PARTS

MULTI-AXIS MILL TURNING

Mill turning with a sub-spindle allows parts to be turned and milled complete in one setup. This increases part accuracy and reduces cost.

5-AXIS CNC MILLING

5-Axis CNC Milling allows complex parts to be manufactured in one setup, reducing costs for our customers and allowing us to produce products with more consistency and higher quality.

CUSTOMER COMMITMENT

We want to earn your business and it is Hi-Tech's policy to provide the utmost in customer service and support to satisfy our customers.

PROVEN QUALITY

Hi-tech's reputation in the manufacturing industry provides assurance to every customer and proves our commitment to quality. Our awards prove the level of quality and excellent customer service that makes Hi-Tech a trusted and respected facility.

"We would like to thank everyone at Hi-Tech who played a part in getting the parts we needed turned around so quickly. Our customer really shorted us on lead time, but Hi-Tech was able to work through issues as they arose and was also able to meet our customer's demanding schedule. Again, thank you and your team for the support."

David Provencher

Purchasing Manager • R.E. Darling Co., Inc.

"For Honeywell, Hi-Tech is one of our more reliable suppliers. They have excellent product quality with 100% on-time delivery, and their commitment to help the customer is one of the best. They have an incredible team to help us with engineering and technical assistance, and their lead time and price competitiveness are insuperable.

We at Honeywell feel that if all our suppliers had the commitment Hi-Tech has with its customers our life as buyers would be too easy."
